# ABSOLUTE STEEL

## STANDARD FEATURES

Australian Standard 50 x 20 tube steel frame.

Fully welded construction combining quality Australian solid and tubular steels.

Professionally measured, made and installed by experienced tradespeople.

Quality single point deadlock with keyless locking snib, conforming to Australian Standards.

Powdercoated over zinc plated base.

Porch enclosures and window grilles available in most designs.

## TUFFSCREEN

Heavy duty insect mesh. Recommended on steel door range and high traffic areas (black only).

## SUPAMESH

Limit vision mesh - allows view out while restricting view in (may not be effective in some installations). Available in matching or contrasting colours. (Colours limited)

## STAINLESS STEEL MESH

316 Marine grade (black only)

## GALVANISED STEEL MESH

(Black only)

## PERFORATED SHEET

Combination of holes punched in aluminium sheet offering maximum security. (Black only)

## SPECIFICATIONS

Due to the continuous upgrading and sourcing of materials, specifications in design and manufacturing of doors shown may change without notice.

## WARRANTY

12 Month warranty on construction/finish/installation/lock.

Adjustments to the fit of the door and operation of lock due to house movement are not covered under warranty.

Tampering with lock, misuse and claims due to lack of maintenance are excluded from warranty.

Tarnishing of brass and chrome locks are excluded from warranty.

Maintenance: all powder coated products should be washed with warm, soapy water regularly. In coastal areas wash at least once a week.
